EVENT WAS OF GREAT INTEREST

Sale of Hogs at the Hiawatha Lake Stock Farm was an Unqualified Success

Wednesday's sale of Poland China hogs at the Hiawatha Lake Stock Farm was a great eye-opener to many of the strangers who attended as well as to our home people. And to our own people, of whom about 400 were present, the farm and its equipment was a great surprise, as many of them had never before had occasion to visit the place, though located only three miles from town.

On arrival at the farm everybody was invited to partake of an excellent lunch, and the invitation was very generally accepted.

At the opening hour of the sale the terms were announced by the auctioneer, Colonel Cottingham of Illinois, and as soon as the stock was driven up lively bidding began. In his introductory remarks the auctioneer said that Florida was sure to become one of the leading hog raising states of the Union on account of the climatic conditions and the ease with which feed can be raised.

As will be seen by the following list of purchasers the fame of Florida raised brood stock has reached to far distant states, and it will be only a few years until we will be the recognized headquarters for breeders. Some of the purchasers bought several head of Blood's high bred stock for their herds:

B. F. Shuler, Holly Hill, S. C.
J. A. Chatham, Louisville, Ga.
Harper & Wallace, Bertrand, Mo.
F. W. Darcotte, Washington, Ga.
John Young, Cochran, Ga.
Beacham Stock Farms, Alachua.
J. D. Herlong, Micanopy.
Tom Wooten, Tignall, Ga.
Sam Clark, Louisville, Ga.
M. C. Herndon, Bristol, Fla.
J. S. Jones, Adel, Ga.
M. Reif, Martin.

L. E. Hobson, Darlington, S. C.
A. B. Zetrouer, Rochelle.
Sawnee Farms, Live Oak.
H. W. Rush, McIntosh.
E. E. Montgomery, Kingtree, S. C.
While the average price paid for this lot of hogs was only \$160, this is considered good by experienced breeders, as it was the initial sale of the Hiawatha farm, and it only remains for the stock to make good to place this Blood breed of Poland Chinas at the top of the list.

The breeders from other states who attended the sale, left this morning for the Beacham Stock Farms, at Alachua, where the third sale of the series will take place today.

The fourth sale will be held at the Sawnee Stock Farms, Live Oak, on the 20th.

The stock raisers from other states who were present at the sale express surprise that every farmer in Marion county does not go extensively into the raising of thoroughbred hogs, as they admit that everything here is more favorable to the industry than in many other sections of the country.

From the large attendance of local farmers at the sale it is plain to be seen that they are waking up to the opportunities offered for stock raising in Marion county, and we predict that at no distant day our county will be the center of the industry in the southwestern states.

VILLA EXACTED TRIBUTE FROM THE PROFITEERS

San Antonio, Tex., Aug. 18.—The whimsical caprices of Francisco Villa which have ranged from practical jokes to violent outbursts, had an odd climax at the little town of Sabinas, Coahuila, when Villa concluded the terms of surrender to the De la Huerta provisional government of Mexico.

After closing the Sabinas brewery and all saloons, Villa dispatched four "auditors" to audit the books of all the larger mercantile establishments of the town and report to him the names of those men whose books showed the most profit made during the past 12 months. This being accomplished he requisitioned on these stores for shoes, hats, breeches, underwear, socks, shirts, forage, horse-shoes, leather, pack mules and horses.

Later Villa told General Martinez with whom he concluded terms for surrender that he did not expect the provisional government to pay for these goods as "the people he had taken clothing and provisions from were able to use it on account of the large profits made during the past year." All of the materials seized were issued immediately to Villa's command.

MEXICANS LABORERS WANTED AT HOME

Mexico City, Aug. 2.—Governmental efforts to stay the emigration of Mexican workers into the United States and to induce those already there to return to their native land have taken form in the official support given a corporation recently formed to develop 500,000 acres of land in the Fuerte valley of Sinaloa. The company, in addition to a federal concession, has been granted a subsidy of \$2,500,000 by the state government of Sinaloa and large tracts of land in that state. It plans to construct several reservoirs at Choix and a dam at San Blas, with canals on each side of the Fuerte river to be used for irrigation purposes. With land available for irrigation it is hoped to keep Mexican laborers in Mexico and secure the return of thousands who have emigrated to the United States.

(Associated Press)

Columbus, O., Aug. 19.—Warden P. E. Thomas, of the state penitentiary here is strongly in favor of a law providing that families of criminals receive the proceeds of the prisoner's labors while a ward of the state. "The state of Ohio has no right," he says, "to punish the families of criminals by depriving them of support of the family head."

The state, he says, should put every prisoner to work. He says the state should have five brick plants instead of one to keep the vast number of prisoners confined in the penitentiary employed.

"Work, religion and education bring about growth in prisoners," he says. "Idleness is a curse. Ignorance is a curse. Folks like to talk about the college graduates in the penitentiary, but they are the exception; ignorance is the rule."

THREE BANKS THAT HOLD MUCH OF UNCLE SAM'S COIN

Philadelphia, Aug. 18.—The combined "Lisle Thread National Bank," "The Old Sox Bank" and the "Feather Bed Mattress Bank" now hold more than \$3,000,000,000 of the country's cash.

This is the estimate of William H. Hutt, acting governor of the Philadelphia Federal Reserve Bank, made of the loose cash being carried around in pockets and stowed away in various places. He was addressing an organization of business men.

Even a small proportion of this three billions invested in Liberty bonds would bring them back to par, he pointed out, or if the money was deposited in savings banks it would inject new life into industry.
